Dear Rick:

Just a note to let you know how much we appreciate your efforts in assisting us with the design and specifications for fabrication of signage for our new banking facility at 1104 S. Arlington Heights Road. Your expertise proved most valuable as we sought to ensure visibility and identification on what is a major arterial roadway. We appreciated the attention given to our project and the ease we found while working with you and your staff. Your work came in on time and on budget and greatly assisted us as we made our way through the entitlement phase with the Village of Arlington Heights.

Please be assured we will not hesitate to call on you for services in the future. We enjoyed the experience and are indeed pleased.

Thank you for a job well done.

Sincerely,

W. Franklin Appleby, Jr.  
President
